XN UNIVERSAL REMOTES:

The XN Series are a remote designed to be used on Vehicles where the Transponder & Remote are Integrated. More specifically for OEM keys that contain a "NXP" eeprom chip. This remote covers most OEM Philips integrated keys that identify as ID46 series (PCF7941, PCF7945 etc.) XN Series can also cover ID46 - style keys where the transponder & remote are non integrated. This can be performed by Cloning the original key onto this XN remote, then Generating the remote data onto the same XN remote and programming the remote into the vehicle. This series is supplied in **BLUE** packaging for easy identification.

SERIES SPECIFICATION

- Suits Integrated Remote keys.(NXP)
- Programmable with the XHORSE Key Tool Max (See Art. KTM)
- Requires a CR2032 Battery (MAXELL CR2032 supplied FREE with order)
- Accepts KEYDIY key blades
- Battery must be in the remote for Wireless generating.

XE UNIVERSAL REMOTES:

The XE Series are a very unique remote designed to be used on Vehicles where the Transponder & Remote programming are separate & can also be used for Integrated Remote keys. Any transponder cloneable or generateable by Key Tool Max can be transferred to this Remote wirelessly only. It has the same Transponder coverage as the super chip. Meaning there is No need to add a transponder to this remote. This series is supplied in **PURPLE** packaging for easy identification.

SERIES SPECIFICATION

- Suits both Non-integrated & integrated Remote keys.
- Programmable with the XHORSE Key Tool Max (See Art. KTM)
- Requires a CR2032 Battery (MAXELL CR2032 supplied FREE with order)
- Full compatibility can be found on our "SRS" Database
- Accepts KEYDIY key blades
- Does not require a separate Transponder chip.
- Battery must be in the remote for Wireless generating.

XS UNIVERSAL REMOTES:

The XS Series are a Smart Remote, designed to be used on Vehicles with Smart / Proximity Systems. This series is supplied in **ORANGE** packaging for easy identification.

SERIES SPECIFICATION

- Suits many Vehicle Makes that start by pushing a Button on the Dash when the key is in Proximity of the Vehicle
- Programmable with the XHORSE Key Tool Max (See Art. KTM)
- Takes a CR2032 Battery (MAXELL CR2032 supplied FREE with order)
- Accepts KEYDIY key blades
- Full compatibility can be found on our "SRS" Database
- Battery must be in the remote for Wireless generating.

*Keychain accessory to open doors
and use shared surfaces*

NEW

**HYGIENIC DEVICE VALID FOR USE
ON DOORS, ELEVATORS, ATM'S etc.**

**MADE FROM SOLID BRASS
A NATURAL ANTIMICROBIAL MATERIAL**

Zero Contact is a new accessory, designed by JMA, which protects the health of its users, by avoiding contact with shared surfaces when opening a door, pressing the button of a lift, using ATM keys, pressing switches, etc. i.e. places that may not be properly sanitized.

Zero Contact is made of brass, a light material that is, above all, safe, as infectious microorganisms do not survive for long on its surface (i.e. Brass is an 'Antimicrobial' material)

This small and light device can be conveniently attached to a key ring. It consists of a circular handle to hold the tool with your finger, plus a hook that can be used to Open Doors & Lift/Hold Bags etc., and at the end of the tool is the Button Presser, which can be used to press buttons & switches etc.

**Professional
Eye catching
Hangable
Display Packaging**
