XM SMART KEY

UNIVERSAL SMART KEY FOR LEXUS , SUBARU, TOYOTA VEHICLES

Art ID: XS-TOY-00

NEW

Check
sglocks.com.au
For Pricing!

PRODUCT DESCRIPTION:
The **XM Series** are a Smart Remote, designed to be used on Vehicles with Smart / Proximity Systems specifically in TOYOTA/LEXUS & SUBARU

In conjunction with the **XHORSE Key Tool Max**, this remote has the ability to lower the stock holdings of SGT or OEM smart remotes - replacing 20 + types of Toyota/Lexus smart keys alone.

XM - remotes cost 200 points to activate (see points system below)
The remote can be generated infinitely after it's initial activation at no extra point charge.

The PCB has 4 buttons, however these buttons can be configured for different applications using the Key Tool Max and by Key Shell selection.

Example: 4 button PCB in 2 Button Shell

This series is supplied in ORANGE packaging for easy identification.

PRODUCT SPECIFICATION:
- 4-Button
- Suits many Vehicle Makes that start by pushing a Button on the Dash when the key is in Proximity of the Vehicle
- Programmable with the **XHORSE Key Tool Max** (See Art. KTM)
- Takes a CR2032 Battery (MAXELL CR2032 supplied FREE with each Remote)
- Battery must be in the remote for Wireless generating
- Accepts KEYDIY key blades

POINTS SYSTEM - EXPLAINED

XHORSE Points are collected through remote generation.
XHORSE points cannot be purchased - POINTS ARE ONLY OBTAINED THROUGH XHORSE PRODUCT USE.

XK	**XN**	**XE**	**XS**
XK Wired remote = 25 points	XN Wireless integrated remote = 40 points	XE Wireless Super remote = 40 points	XS Smart/Prox remote = 60 points
8x remotes = 200 points	5x remotes = 200 points	5x remotes = 200 points	4x remotes = 240 points

Mirage	2012-2014	46

NEW

KS2

PRODUCT DESCRIPTION
This Mitsubishi 46 Emulator is for Generating a functioning emerency start key that can be used to add a Regular Proximity key in an All Keys Lost situation.
The KS2 is compatible with both the XTOOL-AUS & XT-ELITE-AUS.
The KS-2 Supports All-key's-lost matching for ID46 Mitsubishi systems only. The KS2 eliminate's the need to disassemble the Smart Unit on MITSUBISHI Vehicles.
The original car EEPROM data is read from the OBD & Calculated online to produce a working Key file onto the KS-2 using the KC100.
The ignition can then be turned ON using KS-2 & A New Smart key can then be Added Normally with XTOOL.

PRODUCT SPECIFICATION
Type: XTOOL Key Programmer Adaptor - (Additonal Hardware)
Compatible with: Art. XTOOL-AUS & Art. XT-ELITE-AUS
Manufacurer Coverage: MITSUBISHI

PITBULL CONTAINER LOCK

'Xtra-Lok' PITBULL CONTAINER LOCK
With LOCKTON 55mm High Security Padlock

PRODUCT DESCRIPTION

The **PITBULL CONTAINER LOCK** is a 3-piece custom designed shipping container lock comprising of 300mm long 8mm thick machined channel, in 3 parts.

When closed, all 3 channel sections are interlocked and secured with a 32 x 20mm solid steel slide bolt.

When interlocked, gaps are protected by 8mm thick shields ensuring there is no access to cut the bolt or jimmy the lock.

Shields cover the gaps between the channel sections and between the channel and bolt.

The PITBULL Container Lock comes with a 55mm **LOCKTON** padlock:

- 500-55-KD 55mm Padlock
- 55mm Solid brass body (Chrome plated)
- Keyed to differ
- 10mm Boron - Quick change shackle
- Re-Keyable (C4) 6 pin cylinder
- Suitable for restricted key systems
- Can be made from key release to key retain

AUTEL® IM608PRO

IM608PRO

This dedicated Immo Module has been designed with the Locksmith in mind.

The IM608 Immobiliser module is a reflection of 17 years of OEM-Level Diagnostic experience. The **IMMO status scan** screen integrates all the useful information into one screen laying out every function in easy to follow guides **step-by-step.** Selecting this screen automatically displays the parts of the immobiliser system that are relevant. It then runs a fault code scan on these modules prior to programming.

All relevant info like Vin, Key Count, Number of Available Key Positions etc. will also be displayed here.
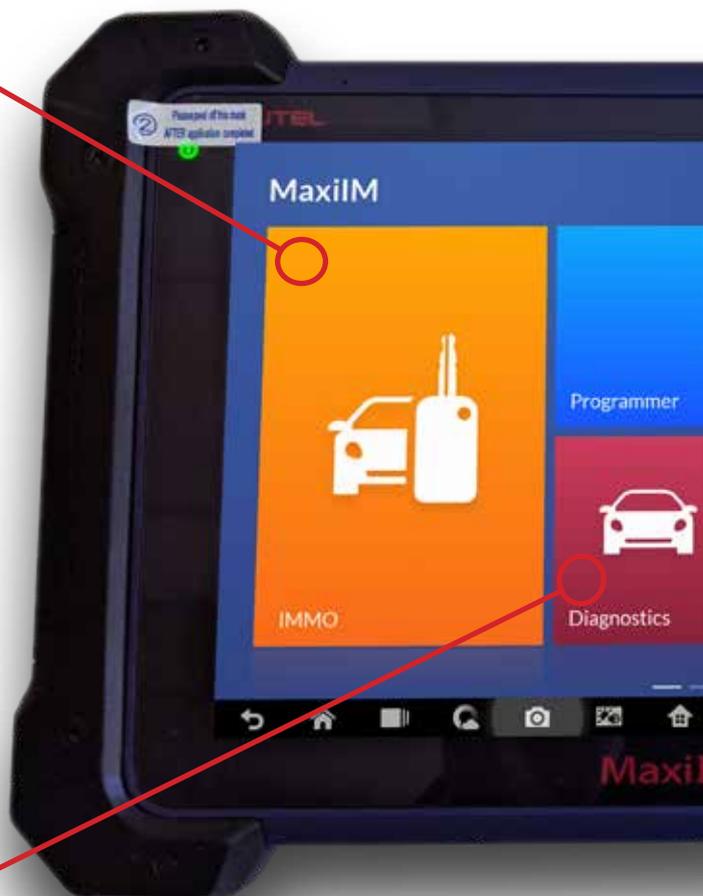

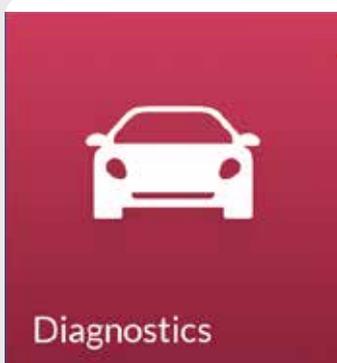

Established in 2004, Autel is now recognized by the automotive aftermarket industry as one of the fastest growing scan tool companies providing the most extensive and best price-performance ratio OEM-level diagnostic products and first-class customer support in the world.

The **IM608** also contains a fully loaded OEM-Level Diagnostic facility that can be utilised by Locksmiths to diagnose Immobiliser & Remote system Faults.

Being a dealer level machine - it is also possible to Relink modules & Recode replacement parts when new modules are installed that impact the immobiliser system.
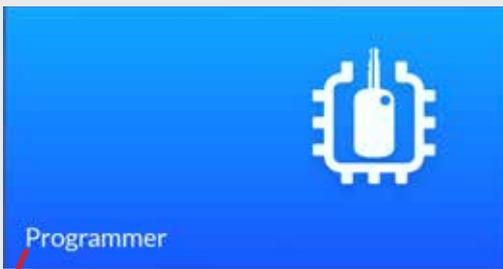

**A complete module dedicated to Reading and writing Transponders, EEPROM, Flash & MCU Processors.**

Replaces the need to buy several dedicated Programming Machines.

200+ Diagram's & images for vehicle specific In-Circuit programming, removing the need to remove processors from the PCB.

2000+ Eeprom Flash MCU types supported
96- Ecu Read & write function
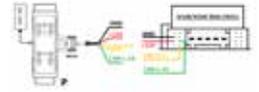

Key Chip Read/Write, Key Frequency Detection, Key
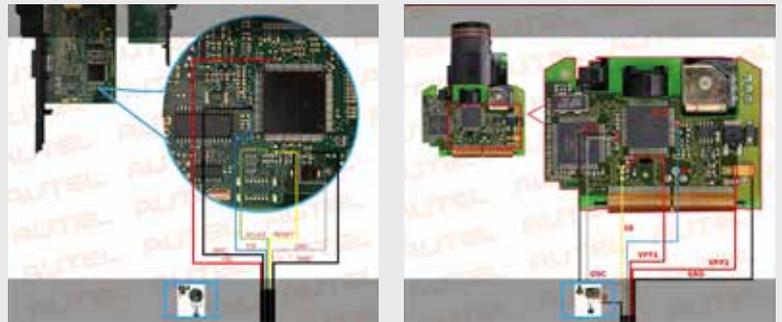

A complete module dedicated to creating immobiliser keys via reading the eeprom or equivelant on the bench.

Replaces the need to buy a secondary eeprom calculation tool.

Over **1400+** different eeprom modules .

This module is unique in that it does not require a secondary Hardware & software to Read & write the data.

The EEPROM can be Read and Key position can be chosen. Then the transponder can be written to the eeprom in one step - by selecting **One-touch Processing.** Alternatively an eeprom file can also be imported if it was read from another tool.

Quick Support Feature

All IM608 customers can contact the **SG Support** team to give them access to control their tool.
The **SG Tech team** are able to assist with the most difficult of vehicles. In conjunction with the **"TXT"** support service & dedicated call lines the team has been able to get thousands of vehicles back on the road again.
The camera can also be opened on the tablet to show our support team what you are up against!
