SMALL PINNING MAT

Suitable for Vans (305mm x 203mm)

(SMALL 305mm x 203mm)

PRODUCT DESCRIPTION

This high quality rubber pinning mat from SP LOCK PINS is a must have for any mobile locksmith. The mat comes with several raised sections and indents to help prevent pin loss and streamline the pinning job process.

The underside of the mat is also mildly adhesive ensuring it stays in place and won't slide around, making it a great option for vans and mobile workshops.
PRODUCT SPECIFICATION

- Material: Rubber
- Dimensions: 305 x 203mm

Art. **PMAT-S**

LARGE PINNING MAT

Suitable for Shops (533mm x 305mm)

(LARGE 533mm x 305mm)

PRODUCT DESCRIPTION

This high quality rubber pinning mat from SP LOCK PINS is a must have for any locksmith workshop.

The mat comes with several raised sections and indents to help prevent pin loss and streamline the pinning job process.

The underside of the mat is also mildly adhesive ensuring it stays in place and won't slide around, making it a great option for multiple workshop surfaces.

PRODUCT SPECIFICATION

- Material: Rubber
- Dimensions: 533 x 305mm

2023 CONFERENCE WRAP UP

Thank you to everyone who joined us for the MLAA National Conference and Trade Expo 2023 in Cairns.

The event was a huge success, with **447** people through the doors over the 2 days.

The Trade Expo by all reports was one of the best in the history of the MLAA.

In addition to the fantastic venue, facilities & great Queensland hospitality was the entertaining Expo Gala Dinner.

We look forward to seeing you all again in 2024.

ORIGINAL LISHI TOOLS

DOMESTIC LOCK PICKING COMPETITION

24k GOLD - Domestic Pick Set
VALUED AT $2000

With the support of our exclusive partner ORIGINAL LISHI the SG Team was able to launch a new initiative at this years EXPO.

This initiative promoted the training, development and then ultimately a new ORIGINAL LISHI Picking competition.

The ORIGINAL LISHI domestic lock picking competition came to life at the MLAA Cairns Expo this year on the SG stand & was a huge success, with over 45+ of the industries best competing over 2-days to achieve the fastest time.

The competition involved entrants picking 3x locks & recording a time for each lock opening. The times for each of the 3-locks were then added together to give an overall time for each participant.

On Saturday the 28th of October the top-4 competitors from Friday and the top-4 from Saturday were announced as finalists.

The finalists then met again in untimed knock out rounds & competed "Head to head". Each "Head to Head" showdown being the best of 3 openings.

The rounds then progressed over a couple of hours until we were left with 2 Grand Final contenders.

> Matty Younis - Lock Corp VIC
 &
> Brian Micatka - TAFE, NSW.

The Grand Final drew a huge crowd to support & spectate the event, The tension in the air was palpable.

Onlookers were clearly as amazed (as were the SG Team) with the atmosphere that naturally formed, it was not unlike that of a major sporting Grand Final.
Matty narrowly took the victory with a 2-1 win over Brian & was announced as the: **1st ORIGINAL LISHI Domestic Picking Champion.**

As the winner, Matty Younis was awarded the much coveted 24k Gold Domestic Pick Set.
This prize was presented to Matty by Ed Sieper at the MLAA EXPO Gala dinner on Saturday night.

When SG & ORIGINAL LISHI began their work together to develop the Domestic LISHI picks for the Australian market, they never dreamt that we would see picking times as low as 4 seconds.

We would like to thank all of the participants & spectators that came along to support this event & we look forward to running this initiative & new favorite LOCKSMITH Sport again in the near future.

1. KEY & REMOTE PROGRAMMING

XTOOL Elite IK is an Extremely Powerful & Compact Diagnostic Key & Remote Programming Machine.

The Elite IK is a smaller, more economical alternative to the ELITE with a near equivalent level of power and functionality.

It is capable of programming the majority of Vehicle types from 1996- to current models.

It does not require Tokens to program Keys & Remotes.

Regular updates are available as they are rolled out and the unit is updated via WiFi.

XTOOL supports the following situations:
- Lost Keys
- Additional Keys
- Remote programming
- Pin code reading
- Pin code calculators
- Read + Clear fault codes
- Data recording & Screenshots

2. KEY DUPLICATION & CODE CUTTING

The XTOOL X-CUT is a powerful Code Machine dedicated to cutting Automotive Keys.

It has been developed to cut:
- Edge Keys
- Laser Keys
- Half Keys
- Plastic Keys
- Aluminium Keys
- Crucifix Keys (with purchase of XCUT.007 Key vice)
- Tibbe Keys (with purchase of XCUT.006 Key vice)

The integrated touch screen display enables easy navigation and function selection with its intuitive design.
Key cutting is simplified and streamlined with the options of cutting via Manufacturer, Model or Key Profile with more profiles and vehicles being consistently added via Free Updates.
The software platform also comes with a massive key code database that simplifies the All Keys Lost process.
Trace Duplication function takes the guess work out of making an extra key without having to search for the correct profile and precisely decodes the original key.
Create your own key profiles for the machine via the Customise Key Profile function and create profiles for Edge and Laser keys.
The onboard re-chargeable battery unit has the ability to cut up to 40+ keys without any external power connection.

3. REMOTE GENERATION, TRANSPONDER GENERATION & KEY CLONING

The Art. KTM-PRO is a very Powerful & Completely Stand-Alone Remote/Transponder Machine.

Transponder Cloning & Generation

Texas Crypto DST+ - H key Clone
Megamos Crypto - 8C
Fixed Code - ID11, 12, 33, 40, 41, 42, 43, 44

1x Art ID: KD-KEY3-DEAL-PKG
- 3rd Tier Range of 17 x KEYDIY Flip Key Blades (1 of each) organised in a Art.Id Labelled Case

5. UNIVERSAL TP KEY HEADS

KEYDIY Universal Transponder Key Head. This key head is a great all-in-one solution for quickly making a complete transponder key for a customer and reducing stock holding on key heads and shells. With a simple design for the transponder chip and a singular roll pin for the key blade, job time is drastically reduced and key duplication greatly simplified.

6-9. UNIVERSAL REMOTE KEYS & SMART KEYS

Art. XK-B5-06-BSC
5x XK Series remotes
- REMOTE KEY WITH SEPERATE TRANSPONDER
