SG Lock & Security is a wholesale distribution company with over 70 years experience. Innovation is what drives us. We distribute throughout Australia and New Zealand an expansive range of traditional and modern security products sourced both internationally and locally.

Our company is defined by our 3 Core Values:

Customer Service & Satisfaction

Our customers are our partners and our goal is to provide the best possible service and customer satisfaction

Quality & Value

We supply products that are high quality while at the same time offering great value.

Innovation

We are small enough to listen to our customers and large enough to deliver better solutions for their businesses.

SECURITY
SINCE 1920

**ALWAYS THE
SAFE CHOICE!**

**SCAN TO SEE THE
COMPANY VIDEO**

In Wetter-Volmarstein, the ancestral home of BURG-WÄCHTER, skilled craftsmen were building locks in the protection of Volmarstein Castle in 1750. This castle is the unmistakable trademark of BURG-WÄCHTER and symbolises quality, security and innovation

BURG-WÄCHTER is a 4th Generation Family-Owned private business, with nearly 800 employees.

Operating under the slogan "Always the Safe Choice", BURG-WÄCHTER offers over 3000 high quality products including: Safes, Locks & Bolts, Cash Boxes, Key Cabinets, Electronic Smart Home Locking Systems & Smart Home Devices plus many more.

BURG-WÄCHTER have a prime market-leading position in worldwide production and distribution with facilities in Germany, Romania and China.

BURG-WÄCHTER products frequently receive awards and accolades for their state-of-the-art technology and design.

Their first class knowledge and experience is not only passed from generation to generation but is also shared with their partners across the world.

This ever-expanding knowhow ensures that people all over the world trust the BURG-WÄCHTER brand.

We are excited to have Michael Gemmeke from BURG-WÄCHTER once again travelling to Australia for the 2024 MLAA Conference as a guest of exhibitor and trade member SG Lock & Security.

Michael has been a proud member of the BURG-WÄCHTER team since 1992 as the Sales Manager for the companies Export Division.

Michael has been working with the SG Lock & Security team for over 2 decades and is one of their most valued and longest standing partners in the business.

"I am happy to say that I have been working closely and successfully with SIEPER Group for over 20 years and it has proven to be an exemplary partnership." – Michael Gemmeke

PURE-SAFE

THE BENCHMARK OF ITS CLASS

Home & Office

COME SEE
THIS AT
MASTER
LOCKSMITHS
2024 EXPO

REDEFINING
SAFE OPENING

Modern protection at home and in the office
at an affordable price - new electronic lock
provides the highest level of convenience.

The benchmark in its class

SECURE & MODERN THE NEW PURE-SAFE COMBINES THE MOST IMPORTANT FEATURES EXPECTED OF A QUALITY SAFE OF THIS CLASS.

A growing number of people are opting for the additional security of a safe. Ideal for locking away watches, jewelry, cash, cards and ID documents before leaving the house. The new Pure-Safe safes offer a good level of protection at an extremely attractive price. The Pure-Safe has some very unique features.

For example, the convenient, automatic door opening by motorised bolts on all models with an electronic lock. The new control panel is flush-mounted in the door and operates with absolute precision. There is something to suit everyone among the models - including those with a conventional key lock.

Solid protection. All Pure-Safe models offer a robust level of security. The door is double-walled, the locking bolts are reinforced and the body has protection against drilling. After all, security counts!

Automatic door opening. The Pure-Safe motorised bolts open the door automatically by simply entering the code. Valuables can then be conveniently placed inside or removed - a real benefit!

Modern & Clear Design

- ✓ Flush-mounted electronic lock with Key override
- ✓ Haptic feedback when a button is pressed
- ✓ Clear display with precise indication

'Diplomat' SAFE - Electronic/Finger Scan

PRODUCT DESCRIPTION:

- Tested and supervised security by ECB.S/VdS.
- Insurance rating \$110,000
- Certified protection against burglary and fire.
- ECB.S Certified to Resistance Grade 1
- Resistance Grade I according to EN 1143-1
- Certified fire protection according to EN 15659. LFS 60 P
- Certified 60 minute protection against fire.
- Triple-walled body with armoured, special fireproof insulation.
- BURG-WÄCHTER special 'FPC Buildup' insulation in body and door.
- Special rear wall construction with additional armoring.
- Four-walled door with extensive armoring to protect boltwork and lock.
- Door also features BURG-WÄCHTER's patented, non-resettable double emergency locking system.
- Four sided locking through strong round bolts.
- Recessed door for added protection.
- Specially concealed hinges.
- Heat sensitive seals - swells to seal door in event of a fire.
- Prepared for both wall and floor fixing - fixing materials included.
- Accepts up to 12 mm bolt
- Depth for files of common size, with 1 adjustable shelf.
- Silver metallic finish.

SecuTronic - the first biometric safe lock with VdS Certification

- Developed by BURG-WÄCHTER.
- VdS approved lock with fingerscan module, EN 1300 class 2.
- Programmable electronic lock.
- 10 x 6-digit pincodes.
- 1,000,000 possible combinations.
- Up to 20 x fingerscans.
- When opening with fingerscan, 2 different fingers must be entered/programmed.
- Scanner only accepts 'real, live fingers.'
- Precise finger scanner, for accurate reading.
- Intelligent, menu driven operation.
- Administration of up to 10 users, 1,000,000 million different combinations and up to 300 optional TSE E-keys.
- User names, access times and rights, calendar functions etc are available.

JMA[®]

Opening
the
future

About

JMA is a premium brand in the global locksmithing market. Their history has been defined by experience and innovation for over 80 years.

The family owned business was established in 1942 in Mondragón, Spain and became a major key manufacturing business during its first generation.

JMA grew significantly and become a nationally recognized brand during the 1960s and 1970s. Constant growth in key production naturally led to the international expansion of JMA and the creation of new product lines.

Today JMA sells its products in over 100 countries, and the JMA brand has a dozen commercial branches in Europe, America, Africa and Asia, as well as production plants in both Europe and America.

JMA currently manufactures more than 2,500,000 keys per day, and it has an extensive catalogue with over 80,000 different items spread over all its product lines:

- Domestic and car keys
- Transponder technology for car key duplication
- Remote controls for garages doors and gates
- Key and access point control duplicators

This extensive range has enabled JMA to position itself as a premium international provider of global security solutions. It is a brand that looks to the future by incorporating the latest technologies into its products while always meeting the needs of the market.

NEW MOVE BY JMA

EASY AND INTUITIVE

\ The new MOVE mechanical key cutting machine for dimple keys, laser keys and tubular keys offers a flexible, ergonomic and highly precise professional solution.

\ Its ease of use and portability makes it the perfect tool for those professionals always on the move.

\ One of the main new features is the easy and intuitive mechanism for adjusting the tracer. The direction of rotation is shown on the adjustment wheel.

\ The new clamps expand the possible key cutting options by enabling tubular keys to be cut too, as well as dimple keys and laser keys.

M-BT-ADVANCED

Advanced **DUPLICATING REMOTE** - for Fixed & Rolling Code Remotes

PRODUCT DESCRIPTION

Art ID: M-BT-ADV

This new and improved version of the M-BT comes with a greater signal strength improving operating distance and an expanded compatibility range with more FIXED and ROLLING code remotes currently available on the market.

The M-BT-ADVANCED remote control duplicates 95% of Fixed code remotes and more than 40 rolling code brands using the latest Cutting Edge mobile technology.

The M-BT-ADVANCED Remote can integrate up to 4x different remotes to the 1 remote

Using the JMA REMOTES PRO phone App, you can identify, generate and copy remotes via Bluetooth.

Capable of integrating codes for 4 different original remotes on 1 device

When integrated with the JMA REMOTES PRO APP it is possible to generate an aftermarket remote for many of the popular brands that can be introduced to the Receiver

PRODUCT SPECIFICATION

- 4-Buttons (each programmable to a different remote)
- Frequency: 433 - 868 Mhz
- Fixed Code or Rolling Code: Both Fixed and Rolling
- Programming Method: Peer to Peer or via Dedicated App
- Battery Type: Coin Battery (CR2032)

M-TC

Dedicated **TRI-CODE** remote ATA and B&D

PRODUCT DESCRIPTION

JMA M-TC TRI-CODE Universal remote, is a compact, durable remote that is compatible with ATA Triocode and B&D Tri-Tran Garage & Gate Motors.

The MT-C comes with a Pre-coded default coding type to suit ATA TrioCode Remotes.

The MT-C Can easily be converted to a B&D Remote by:

Holding down the top 2 x buttons (1&2) on the MT-C Remote. The LED will turn on, After 4 seconds, LED will Turn Off Release the buttons, The coding has now been switched successfully

The remote is registered into the ATA or B&D receiver using the factory manual procedure

PRODUCT SPECIFICATION

- 4-Buttons
- Frequency: Triple Frequency 433.92, 433.47 &434.37 MHz
- Replaces PTX5v2 and B&D Tri-Tran Remotes
- Battery Type: Coin Battery (CR2032)

'60mm' Backset MORTICE LOCK *Matte Black*

PRODUCT DESCRIPTION

The LOCKTON 60mm mortice lock body and latch are made from 304 Stainless Steel, making them not only extremely tough and durable, but also extremely weather resistant to the harsh Australian environment. The LOCKTON Art. SG-ML60-BLK retrofits Australian standard 60 mm mortice locks and comes with the required fixing screws, strikes, cylinder retaining pins, turn snib adapter, templates and instructions.

PRODUCT SPECIFICATION

- 'Easy Change' Lock Functions - turn the dial on the side of the lock body (Consistent with the LOCKTON 23 mm Backset & 30 mm Backset Mortice Locks)
- Kick off function
- Accepts Australian oval cylinder
- Easy close action for electric strikes
- Uses industry standard cams
- 4-hour fire rating
- 10-year warranty
- Cycle tested
- Fits doors between 32-50 mm
- Suits left & right opening doors
- Electric strike compatible.

PANIC BARS

'Available in rim & vertical types to suit a wide variety of applications & configurations'

304B Stainless Steel Construction

High shock-resistant latching mechanism for protection against vandalism

Suitable for commercial applications, including wood, steel, or aluminum doors

All internal components are of high rust resistant alloy or electroplated steel to avoid corrosion

DOUBLE DOOR PANIC EXIT KITS

Panic Exit DOUBLE DOOR KITS 'STANDARD' Door sizes

PRODUCT SPECIFICATION:

- Complies with BS EN1125
- Surface mount installation
- 304B Stainless steel construction
- High Shock resistant latching mechanism
- All inside components are of high rust resistant alloy & heavily electroplated steel to avoid corrosion
- NON Handed
- Alternative external access options available
- Compatible with 201 "Round" Cylinder for exterior access
- Latch automatically dead latches when door is closed
- Single Point Panic Bar - width 820 mm
- Double Point Panic Bar - width 900 mm
- Suits standard door size (820 mm) can be cut down up to 170 mm to suit smaller doors
- Dogging - hold back function with Allen key slot in internal push bar (Non - Fire rated model only)

KIT INCLUDES:

- Single Point Panic Bar
- Double Point Panic Bar
- Overlapping strike

STANDARD DOOR SIZE KITS

1. KEY & REMOTE PROGRAMMING

XTOOL Elite IK is an Extremely Powerful & Compact Diagnostic Key & Remote Programming Machine.

The Elite IK is a smaller, more economical alternative to the ELITE with a near equivalent level of power and functionality.

It is capable of programming the majority of Vehicle types from 1996- to current models.

It does not require Tokens to program Keys & Remotes.

Regular updates are available as they are rolled out and the unit is updated via WiFi.

XTOOL supports the following situations:

- Lost Keys
- Additional Keys
- Remote programming
- Pin code reading
- Pin code calculators
- Read + Clear fault codes
- Data recording & Screenshots

2. KEY DUPLICATION & CODE CUTTING

The XTOOL X-CUT is a powerful Code Machine dedicated to cutting Automotive Keys.

It has been developed to cut:

- Edge Keys
- Laser Keys
- Half Keys
- Plastic Keys
- Aluminium Keys
- Crucifix Keys (with purchase of XCUT.007 Key vice)
- Tibbe Keys (with purchase of XCUT.006 Key vice)

The integrated touch screen display enables easy navigation and function selection with its intuitive design. Key cutting is simplified and streamlined with the options of cutting via Manufacturer, Model or Key Profile with more profiles and vehicles being consistently added via Free Updates.

The software platform also comes with a massive key code database that simplifies the All Keys Lost process.

Trace Duplication function takes the guess work out of making an extra key without having to search for the correct profile and precisely decodes the original key.

Create your own key profiles for the machine via the Customise Key Profile function and create profiles for Edge and Laser keys.

The onboard re-chargeable battery unit has the ability to cut up to 40+ keys without any external power connection.

3. REMOTE GENERATION, TRANSPONDER GENERATION & KEY CLONING

The Art. KTM-PRO is a very Powerful & Completely Stand-Alone Remote/Transponder Machine.

Transponder Cloning & Generation

- Texas Crypto DST+ - H key Clone
- Megamos Crypto - 8C
- Fixed Code - ID11, 12, 33, 40, 41, 42, 43, 44

Founded in 2010, XHORSE is a rapidly growing technology company providing automotive security products and solutions.

Based in China they develop and produce all their products in house and are constantly researching and developing new and improved solutions for the automotive security market.

Their Key Tool Max has made waves here in Australia with its portability, functional design and universal Super Chip transponder that makes chip cloning a far more streamlined process whilst also reducing stock holdings.

KEY TOOL MAX - PRO

ART NO. *KTM-PRO*

PRODUCT DESCRIPTION

The Key Tool Max Pro is a very Powerful & Completely Stand-Alone Remote/Transponder Machine.

This new variation includes an OBDII cable, eliminating the need to purchase the XHORSE M-OBDDongle.

It also includes Battery test probes for testing voltage on a vehicles battery or the battery of a remote.

All existing purchased hardware like 8A Cable etc. can be combined with the new PRO version for existing KTM users that wish to upgrade.

OBD Programming (Essentials version)

KEY TOOL PLUS supports over 20,000 car models worldwide. Easily select the car brands and car models on the immo programming interface by manufacturer name or A-Z word search.

* NOTE- BMW, MERCEDES & VW are not included in Essentials version

ART NO. **KT-PLUS-ES**

Immo Data Tool

For some cars, key programming cannot be achieved via OBD.

KEY TOOL PLUS comes with this utility to create a transponder from the vehicles eeprom file.

Use your existing eeprom reader to read the immo data, then use KEY TOOL Plus to generate an emulated transponder (XHSUP) from the file that will start the vehicle.

Hardware Technical Information:

- CPU: 8-core 2GHz
- RAM+ROM: 4G+128G
- Operation System: Android 9.0
- Screen Size: 10.1» HD Anti-glare; Anti-fingerprint. Super 10.1» anti-glare display enables top operation experience.

PC, Tablet or phone

miracle A9-EA-L AUTO-lite

PRODUCT DESCRIPTION

- Connects to InstaCode
- Improved Noise Reduction Technology with Low-vibration Design
- Wireless (WIFI) Update Function
- Supplied with Automotive Key Vice
- Creates new keys from code
- Cuts 2 track & 4 track Laser Automotive Keys
- Also cuts Single and Double sided Auto Keys
- LED illuminated cutting area
- 27W DC Motor for a fast cut cycle
- Manual Operation Function
- Compact design for easy portability
- 2 Year Manufacturer Warranty
- Can be Upgraded to an A9E with the purchase of the Domestic Jaw (A9.DOM-VICE)

PRODUCT SPECIFICATION

- Size (W X H X D): 276 x 353 x 341 mm
- Weight: 19.5 Kg
- Spindle Motor Power: 24V (27W)
- Main Power: 240V (50/60Hz)

L3-30 LASER ENGRAVER

PRODUCT DESCRIPTION

The L3-30 is the latest Fiber Laser Engraver from LDC. The L3 series Engravers are professional Engravers perfectly suited to Locksmiths or similar that require a compact high quality commercial Laser Engraver, for fast engraving on items like Restricted Keys, Dog Tags, Scar Plates, Cylinders, Padlocks and 1000's of other things.

- Fast, Quiet & Accurate
- Advanced Laser technology
- Laser Marking & Cutting
- Minimizes installation space due to compact size (can be placed on table)
- Safety Cover automatically closes when engraving is commenced & opens when finished.
- Black / White engraving options
- Internal camera enhances design process
- Laser auto focusing automatically finds the focus point
- Vacuum is automatically turned on & off as needed (very quiet) vacuum intakes dust and fumes keeping the work area clean and safe
- NEW easy to use **Magic Art 7** Software (Included)
- The sight protection glass on the safety door protects users when looking at the engraving job

PRODUCT SPECIFICATION

- Max Material Height 100mm
- Internal chamber area 350mm(W) x 100mm(H) x 170mm(D)
- Max Material Weight: 20kg
- Air Cooling
- Laser Power: 30W
- Class 1 Laser
- Size (W X H X D): 404 x 556 x 590 mm
- Machine Weight: 46Kg

Art. L3-30

magic2S

Compact engraving

PRODUCT DESCRIPTION

Magic-2S engraves texts and images on almost every metal surface (brass, steel, hardened steel, stainless steel, nickel silver etc.) with its diamond tipped engraving tip.

The Magic-2S is:

- Light Weight & Compact Size
- Sophisticated Design
- Quiet
- Portable
- Easy to use
- Wireless operations
- Compatible with PC or Tablet
- Laser pointer for easy job setup

PRODUCT SPECIFICATION

- Size (W X H X D): 258 x 274 x 339 mm
- Weight: 15Kg
- Power Supply: 240v 50/60Hz
- Tool Type: Diamond Tip
- Engraving Area: 105mm x 100mm

ML20

Restricted Key System

“A great opportunity to support your Association”

The latest Restricted Key System developed for the Master Locksmiths Association of Australasia (MLAA) and proudly supplied by SG Lock & Security.

Designed by the best in the industry with a superior key profile design that ensures the key clamps & cuts correctly and is one of the hardest inline restricted systems to manipulate on the market.

With 4 different key profiles, a massive range of 52 different barrels and a 10-year design registration on ALL 4 Key Profiles (A, B, C & M) you can provide your customer with a TRUE 10-year registration on a multi-profile site.

Design Registration until 2030

Design Registration provides legal protection against unauthorised key duplication/production.

MLAA Trusted & Recognised Key Head

Nickel Silver - for strength!

High quality Nickel Silver keys, extremely strong and durable.

Precision colour inserts for easy identification.

Customer Testimonial

“

As an organisation, we have been very impressed with the ML20 keying platform. The barrel range is more than ample and the assembled product works perfectly in all the housing brands (oval & night latch) that we have tried.

The ability to acquire short-run key blanks is an added feature that we've not had available from any other keying platform before.

This provides us reassurance that when we need to use another of the keyways, we can achieve this with short run blanks until our coined blanks arrive.

SG Locks have done a superb job in bringing this MLAA branded product to the market Thank you to the whole team! ”

- CLASS LOCKSMITHS

Multiple Profiles (A, B, C & M) Available NOW

Caters for large multi-profile sites.

Design & create systems with expansion from the very start. A, B, C & M profiles all available

Range of 52 Different Barrels

Complete range of barrels to suit all common locks.

Note: 13 different barrels in A, B, C & M Profiles.

Superior Key Design

The key profile design ensures accurate clamping & cutting every time. ML20's intricate profile designs also ensure it is one of the hardest inline restricted systems to manipulate.

SMALL PINNING MAT

SUITABLE FOR VANS (305MM X 203MM)

(SMALL 305mm x 203mm)

PRODUCT DESCRIPTION

This high quality rubber pinning mat from SP LOCK PINS is a must have for any mobile locksmith.

The mat comes with several raised sections and indents to help prevent pin loss and streamline the pinning job process.

The underside of the mat is also mildly adhesive ensuring it stays in place and won't slide around, making it a great option for vans and mobile workshops.

PRODUCT SPECIFICATION

- Material: Rubber
- Dimensions: 305 x 203mm

This high quality rubber pinning mat from SP LOCK PINS is a must have for any mobile locksmith.

The mat comes with several raised sections and indents to help prevent pin loss and streamline the pinning job process.

The underside of the mat is also mildly adhesive ensuring it stays in place and won't slide around, making it a great option for vans and mobile workshops.
